[Home](#) > How can a royalty-free photograph be used ?

---

The statement “royalty-free” is misleading. It is commonly used to indicate the fact that the file containing the visual sent to you is free. However, this does not release you in any way whatsoever from requesting prior permission from ADAGP for the reproduction of the work itself. ADAGP will then inform you, as appropriate, whether its use is copyright-protected or not.
